Somewhere Mr. M, the former undersecretary of General Affairs, has said this:

Those who see making use of this excuse towards the people has a possible limit!

this matter of "accountability" is lacking amidst your general duties.

With the "duty to explain" as a defense to those who support your own existence,

Do I really want to marry him...

It's another two weeks until the ceremony...

I went to take a medical exam for my unending stomach pains and vomiting I've had since two days ago

I may be cursed with being over-worked with three overseas business trips to New York, L.A. and Singapore over these three weeks

gloating once again.

FUTABA Satsuki

Surgeon

I've been admitted
in a hospital with
beautiful doctor

blessing within mis-
fortune.

She was the

DESIRE 5

Matsuki? What is the competition?

since you're leaving, let's take it easy...

I can't really talk since I was late tonight but,

Big sister...!!

That stench is you!!

you've been drinking.

Well hasn't this become interesting...

No...not really;

Which one if us I?

I want a battle!!

I don't want that!!

Whichever he's pleased with....he'll embrace!!

Get undressed!!

Wh...what are you...!?

Isn't that interesting!!

Right... here..... I?

I could clearly
judge the difference
of the sisters in
their sensations
and, of course, the
quality of their
fluids

It was like a
secret from
childhood
days—the world
where we'd play
"doctor".

AH...

HAA...

Their timing was
together in
getting well!

I was surprised
that they would
be as sisters.

I embraced
the big
sister...

And
then the
little
sister...

Sister

...
I was
satisfied in
their
differences.
I'm truly a
lucky
fellow...!!

TN: There really needs to be a medical clause about preventing people from having sex after surgery. With Takashi's reputation, it really would keep his hormones under control for a while...but it's not his fault that he was merely a tool between Mitsuki and Satsuki's little sisterly rivalry...or that he helped the elder Satsuki wake up and realize that a political marriage without love is rather ridiculous! I sort of feared this chapter considering a lot of it involved medical practices, not to mention the first page was hell with all that talk by Satsuki's fiancée. But the chapter turned out to be fun to do after that, mostly driven by the Futaba sister's interactions both with one another and with Takashi. Besides, Takashi still got to do two girls again...even if it aggravated his wound. (and made him stuck with the ugly one at the hospital)...
